THE BEST JUST GOT BETTER

With a longstanding history of being Australia's favourite light-duty bus, the next generation of Fuso Rosa continues to raise the bar in safety, reliability and overall driving experience.

From its Euro 6 engine up front to its reversing camera out back, the all-new Rosa brings with it a suite of active safety systems and performance features to ensure you get the job done with absolute confidence and ease.

Available in 22 or 25 seat configurations, manual and auto transmission plus a range of trim options – there's a Fuso Rosa fit for the job.

And if that wasn't enough, the all-new Rosa is backed by our class-leading 5 year/200,000km warranty* and extended 15,000km service intervals – keeping you on the road for longer and costing you less.

ALL THE COMFORT WITH NONE OF THE COMPROMISE

When it comes to comfort, naturally we think of air-conditioning, high-backed seats, ambient LED lighting and tinted windows. Whilst the Fuso Rosa provides its passengers with all these creature comforts, we know that nobody spends more time in a bus than the driver.

At Fuso, we've gone to great lengths to ensure our driver's cabin is uncluttered and ergonomically designed. With so much time spent behind the wheel, it's the little things that go a long way. Features such as the multi-direction adjustable driver's seat and steering wheel, easy to reach controls including a dash mounted gear selector

and floor mounted handbrake, a 4-speaker PA system and 7.0" touch screen multimedia unit.

Optimal forward visibility is achieved through the deep front windscreen and side-traffic visibility is enhanced via the signature transom window. And with a forward position automatic side-entry door, drivers have an unobstructed view as passengers board or alight from the vehicle.

These simple but significant features minimise driver fatigue and ensures a driver arrives at their destination as alert and safe as the passengers they're carrying.

DRIVER COMFORT

- Multi-directional adjustable driver seat
- Adjustable steering column
- Dash mounted gear selector
- 7-inch Multimedia SAT/NAV unit with Bluetooth and 3 years map upgrades
- PA System with 4 speakers
- Digital Climate Control
- Hill Start assist
- Independent Front Suspension for superior comfort and handling
- Rack & Pinion steering for precise steering input and smaller turning circle

PASSENGER COMFORT
